---

Good Day, Please find attached the Draft Source Control ROD. Please review this document and send any comments you have.

I request that these comments be submitted by **August 17, 2018**. This will give me time to revise the document and finalize by the end of September 2018. Thank you in advance for your consideration.

As you review the document, you will notice that the ROD is essentially the same as the proposed plan. Just a few sections are added to further summarize the selected remedy and the supporting documentation for the selected remedy.

Please note that the comment period on the proposed plan ends on July 31, 2018, and there may need to be some revisions based on any additional comments received. At this time, no written comments have been received.

Thank you for your continued support.
